

VDAB
Dienstverleningsmodel
2020

Market Driven Job Matching

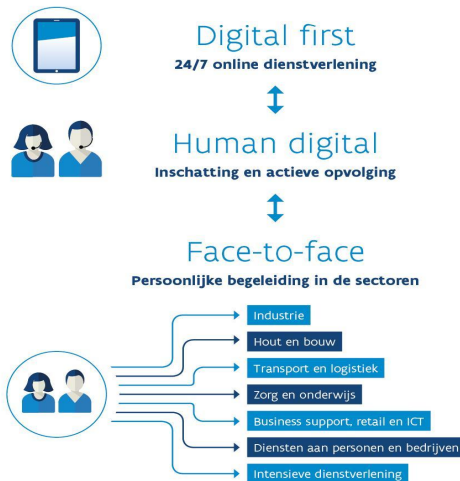

Rol van AI
in de strategie
van VDAB.

VDAB

samen sterk voor werk

Dienstverlening
op maat door
een slim
samenspel
tussen
digitaal en
persoonlijk

Matching – het aanbieden van mogelijke vacatures aan een werkzoekende
– het aanbieden van mogelijke kandidaten aan een werkgever

@the heart of VDAB

1. Profiel, cv

2. Opdrachten

Wat een uitkeringsgerechtigde werkzoekende *moet* doen

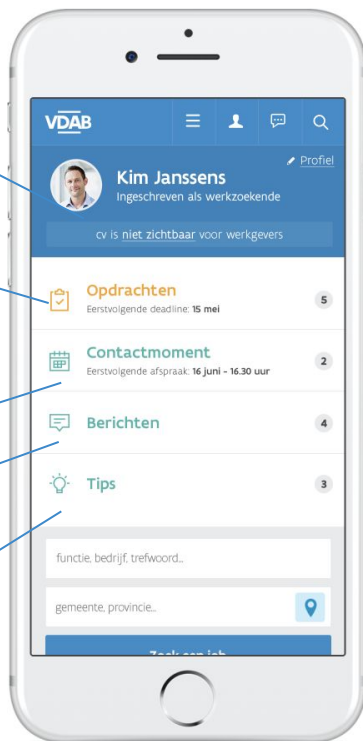

3. Afspraken/contacten

4. Berichten

bv. wijzigingen in het dossier

5. Tips

Interessante tips voor de werkzoekende

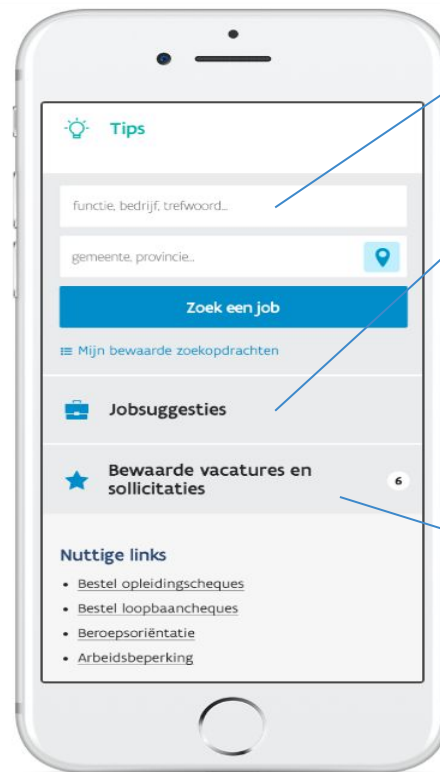

6. Zoek een job

De werkzoekende zoekt vacatures zoals hij/zij dat wil en kan deze meteen bewaren

7. Jobsuggesties

- Suggesties van werkgever en VDAB bemiddelaars
- Suggesties obv je profiel
- Wat andere werkzoekenden als jij interessant vonden

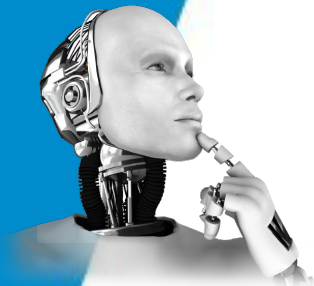

8. Bewaarde vacatures en sollicitaties

Aan de slag met je vacatures & status van je sollicitaties

**VDAB zet artificiële
intelligentie in ter ondersteuning van
werkzoekenden en bemiddelaars**

Enkele kerncijfers

3 236 305 mensen die suggesties krijgen van Jobnet

194 417 actieve jobs

318 226 actieve werkzoekenden.

We trainen op

~ **15 000 000** labels,

~ **3 500 000** kandidaten en

~ **4 500 000** jobs.

Een maandelijkse dump is ~28GB, de dagelijkse updates ~500MB

Radix

**We leverage
Artificial Intelligence
to get you ahead.**

Together with you we discover, design
and deploy transformational AI
solutions.
